

BUILDING FORWARD MOMENTUM

Graham Tech has worked with government agencies and private industries since 2007. We help them build forward momentum by applying emerging tech - not just promising, but delivering great outcomes. Our team of innovative and highly-skilled engineers specialize in cloud, application modernization, data analytics, and cybersecurity. We build robust, scalable, flexible and high performing solutions and services - on time and in budget.

That takes more than coding. We make sure we understand your goals. We set up agile processes to ensure the product delivers on expectations. We work with care, expertise, and diligence to deliver the greatest return on investment.

Company Details

Headquartered in Largo, Maryland

Top Secret Facility Clearance

▶ DUNS: 825126035 | CAGE: 52UTO

Contract vehicles:

- ▶ GSA IT 70 Schedule (GS-35F-513BA) SINS-132-51 (IT); 132-45 A-D (Cybersecurity); 132-56 (Healthcare)
- ▶ GSA STARS II (GS-06F-1202Z)
- ▶ eFast (DTFAWA13A-00123)
- ▶ PSS Schedule GS PSS 47QRAA19D00BY
- ▶ CMS SPARC HHSM-500-2017-000261
- ▶ Seaport NxG N0017819D7728
- ▶ OASIS SB 47QRAD20D1102 (Pool 1)

Certifications

- ▶ ISO 9001:2015, 20000, 27001
- ▶ CMMI

Core Technical Capabilities

Cloud

- Architecture & Design
- Cloud Migration
- Application Modernization
- Amazon Web Services
- VTC Support

Data Analytics

- Machine Learning
- Database Development & Management
- Business Intelligence
- Data Warehouse Solutions
- Geographical Information Systems (GIS)

Cybersecurity

- Information Assurance/ IAVA/FISMA/RMF
- COOP & Disaster Recovery
- Intrusion Detection/Incident Response System Testing/ Hardening
- Identity Management
- (PKI/PKE)
- Risk Management

Modernization

- Human-Centered Design
- Agile Development
- Mobile App Development
- COTS Integration
- Systems Design, Integration & Management
- Business Process Re-Engineering
- Continuous Process Improvement
- Dev/Sec/Ops

We are proud to serve these agencies and more:

A few examples of Forward Momentum

Project	Delivered	Achieved
Common Operating Picture: DoD Dashboard	Implemented an Executive Dashboard that integrated data from multiple disparate systems to provide full mission situational awareness in a Common Operating Picture (COP).	Brought mission data to life for decision support, managing the mission from end-to-end.
Data Visualization, Systems Integration (DoD)	Engineered, developed, and managed virtual environments and enterprise applications that required expertise in cybersecurity, application integration, Cloud Infrastructure, and data visualization.	Visualized complex data for analysts. It helped them to quickly develop accurate and insightful analysis.
Cybersecurity Army (NETCOM)	Network Administration and Defense-in-depth for NIPRNET and SIPRNET installation Campus Area networks.	Created baseline standards. Maintained and delivered stellar IA and physical security which minimized the risk of unintended security breaches.
